### Metal Components, Incorporated

Our Mission is to bring to the home chef the highest quality kitchen accessories made.

Stainless Steel is used in professional kitchens and is now available in our line of Pot Rail Systems.

### About The Products

Metal Components, Incorporated offers decorative and functional pot rails in three collections, three materials and two finishes. Our products are machined from solid 300 series stainless steel as well as solid brass and solid copper.

The line features Pot Rails, which are available in kit form or can be purchased separately to accommodate any configuration.

# ELEGANT

### Pot Rails

for the

**GOURMET KITCHEN!** 

### **Applications**

Our pot rails are designed for the gourmet kitchen; they can be mounted on range hoods, counter tops or counter edges. Pot rails can be purchased in kit form for front or side mounting. Parts can also be ordered individually for custom applications.

With our rounded edge adapter or optional mount for granite, this system is extremely versatile.

#### Pot Rail Kits

Pot Rail Kits are available in 30" to 72" in 6" increments (54" is not a standard) the distance from the mounting surface to front of rail is 1-5/8". Kits can be purchased in all collections Signature, Olympia, and Harvest with a Brushed or High Polished Finish on stainless steel and a brushed finish on brass and copper (no protective lacquer is applied so brass and copper can be finished to you individual needs). All Pot Rail kits are ready to install.

#### Shown left to right

Olympia, High Polish Stainless Steel-Harvest Brushed Brass-Olympia Brushed Copper-Signature Brushed Stainless Steel

Kits include (2) rail posts and required hardware, (2) endplugs, and (1) straight rail cut to length.

Ordering of kits is as follows:

Example 42" Stainless Steel Olympia Pot Rail with a brushed finish.

	Collection	Length	Material	Finish
PR	- 0 -	42	- S	- B
PR = Pot Rail	SI= Signature O= Olympia H= Harvest	30" 36" 42" 48" 60" 66" 72"	S=Stainless Steel B=Brass C=Copper	B= Brushed HP= High Polished

All kits are shipped ready to install in protective packaging. 48" to 72" kits are supplied with multiple rails posts for added support.

Custom Applications Custom rail applications are available by supplying us with the dimensions of your counter, hood or surface you intend to attach the rail to. We will custom cut the rail and supply all components necessary to complete the installation.

Pricing will be determined by adding all necessary component prices together and adding a custom cutting charge.

#### Rail Posts

All collections of rail posts come in stainless steel, brass, and copper. Stainless steel can be ordered with a brushed or high polished finish. Brass and copper come with a brushed finish and no protective lacquer. All rail posts include a standard mount and hardware (mount options shown on next page); (1) 10-32 x 5/16" long setscrew and (1) 10-32 x 1/8" long setscrew.

Collection	Material	Finish	Part Number
Signature	Stainless Steel	Brushed	RP-125-S-B
	Stainless Steel	High Polished	RP-125-S-HP
	Brass	Brushed	RP-125-B-B
